

Tallgrass beef

Holiday Catalog 2010

A Message From Our Founder/Chairman...

Fall is in the air and the change of seasons in full swing at Tallgrass Beef Company. This past year has been filled with new challenges for Tallgrass Beef and we look forward to family and the fellowship of

friends that comes with the holiday season. When I founded Tallgrass Beef Company five years ago I knew that we had a product that was

special in the marketplace-- a grass fed and grass finished beef product that was better for you, your family and the environment. From our initial market

in the Chicago area we have grown. Customers all over the country place orders thru our e-commerce site online and grocery stores are embracing the benefits of our product. As loyal Tallgrass customers you have been a part of the movement to make food healthier, sustainable and safer. We thank you for your confidence in our product and the family farmers and ranchers that work so hard to bring the best grass fed, grass finished beef direct from their farm to the tip of your fork. From the Tallgrass Beef family to yours, we wish you happy, healthy holidays and look forward to serving you in the New Year!
